THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U.S. CODE, AS AMENDED; ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

1. The Tosmare Ship Yard is located on the Baltic Sea coast northwest of the city of Liepaja. All of the installations and departments are located in one area. See accompanying sketch, Enclosure (A), 50X1
2. During the time that I spent in Liepaja I saw no new ship construction, only repair work on old ships. Under the Soviet occupation all available Latvian Government material was used for repair work before additional stock was brought in from the USSR.
3. I cannot give the actual capacity of the dry docks (one floating dock and two dry docks). I do know that these dry docks could and did handle battleships of the Tsarist Navy.
4. All departments in the Tosmare Ship Yard were responsible to the Baltic Soviet fleet command.
5. Unusual cargo-handling equipment included a 40-ton floating crane and a pneumatic grain-loading device.
